

ADAS CALIBRATION

VAS 6430/3 | ACC Reflective Mirror

Article number: ASE 423 213 00 000

The ACC Reflective Mirror VAS 6430/3 is used for the adjustment of ACC sensors on Audi vehicles and is attached to the crossbar of the VAS 6430/1A base frame. Using an integrated laser, the 650x470 mm mirror can be aligned with the radar sensor and tilted into 3 different pitch angles via an adjustment screw. The actual software calibration is performed using the diagnostic tester.

Note: Batteries are not included in the scope of delivery. 4 x 1.5V AA batteries are required.

Important: Procurement is carried out exclusively through authorized Volkswagen Group distribution channels.
