ADAS CALIBRATION

Version 2026.05.12 – Prices on request

VAS 6905A | Porsche 360° Surround Camera Calibration Tool

Article number: ASE 485 425 01 000

Surround View Camera Calibration:

The calibration of the surround view camera compensates for tolerances in tires, chassis, and camera installation. The VAS 6905 calibration system is required for this procedure. During calibration, the surround view control unit calculates vehicle-specific correction values (e.g., image de-warping/distortion correction) for the camera image. Calibration Requirements: Level floor surface (approx. 9x6 m)
