MS 670

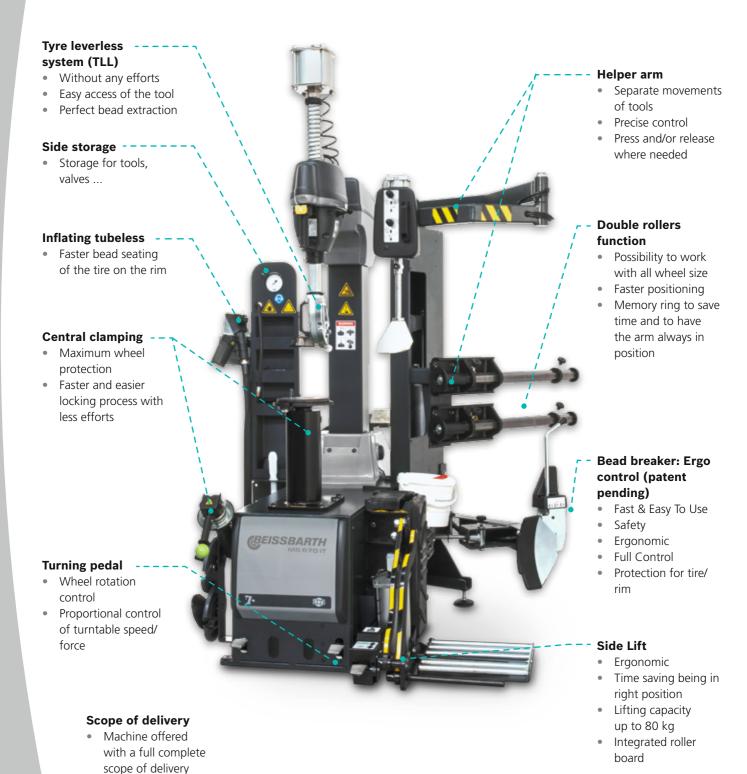

Best in class for tyre specialists

- 30" center post tyre changer
- G-Frame rigidity
- Simple and reliable
- Side Lift NG
- Tyre leverless system
- Ergo Control
- Helper Device

Product at a glance

MS 670 Center post tyre changer

The MS 670 is a 30" tyre changer for high volume workshops and offers all features and user benefits with maximum comfort to perform the perfect and effortless tyre changing. Equipped with center post clamping system for a faster and easier locking system can handle large wheel sizes max 15" and wheel diameter up to 1.200 mm without using any kind of spacers thanks to the NEW Tecnoroller NG 2 equipped with double horizontal arms.

The G-Frame structure of the MS 670 provides a stable and functional design increasing the rigidity of the tyre changer and the Ergo Control hand bead breaking system with the Side Lift NG allows the user to work always in ergonomic position and safety condition. The integrated inverter solution offers a proportional electronic control of the turntable speed. Additionally the TLL leverless system offers the perfect bead extraction which leads to a faster and easier demounting process.

G-Frame

G-Frame for stability, safe and innovative, functional design

The mounting head always remains at a safe distance from the rim to prevent damage on tyre changing.

- G-Frame design standard
- Increase the rigidity of the machine shortening the flow of the forces inside the machine
- Make the machine as much rigid as possible
- Mounting column with extra-wide diameter (140 x 140 mm) and pneumatic locking system

Center post

Center post clamping system:

- To prevent possible rim/tire damages too
- Faster and Easier locking process with less efforts
- Smart arm locking system

Ergo Control (patent pending)

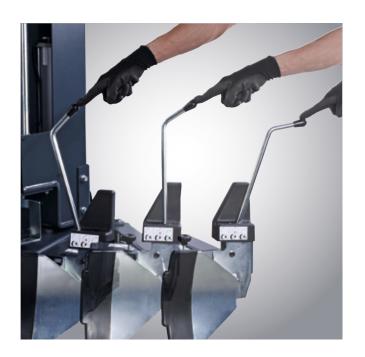

Revolutionary bead breaker system

Ergo Control is a hand bead breaker system that allows you to execute the operation of tyre-beading always in an ergonomic working position, reducing the time with less effort while always being in a safe position.

Ergonomic working position: you stand in front of the wheel, not in front of the pedals.

Increase of safety: the use of the bead breaker lever (patented) guards the operator's arm.

Protection of wheel/rim and TPMS: the control by using the lever gives the operator a maximum of sensitivity. **Intuitive, easy to use:** the movement of the blade can be driven by only a finger

Helper device

Separate movements of tools

- Precise control
- Press and/or release where needed

Follower arm as standard

Control switches easily & ergonomically accessible Double horizontal arm:

- Possibility to work with all wheel size
- Faster positioning, no necessity of spacers
- Push & lift the second bead
- Memory ring to save time and to have the arm always in position

Side Lift NG

Side Lift NG - Simple and easy to use

All new tyre changer platforms can be upgraded with the Side Lift NG which allows the operator to always work in an ergonomic position. The Side Lift NG is mounted on the right side of the machine next to the bead breaker which allows for improved productivity. The Lift is also equipped with an integrated roller board which leads to an easier and faster bead breaking operation.

Tyre Leverless System ("TLL")

Movement of the TLL Leveless system allows to perfectly follow the rim profile making easier the access of the tool and allowing perfect bead extraction (WDK approved).

MS 670 - Technical data

MS 670	
1 Ph – 230 V 50 Hz	
13" – 30"	
Up to 15"	
1200 mm	
8 – 10 bar	
2 speed	
7 – 15 rpm	
75 – 401 mm / Ergo Control	
11000 N	

Scope of delivery

- 1x Lubricant brush
- 1x TLL protection kit
- 1x Wing side protection kit for TLL
- 1x Bead breaker plastic protection
- 1x Bead pressing device
- Helper device with double Horizontal arm
- Ergo Control
- Boost inflating system (MS 670 IT)
- Side Lift NG
- 2 x Center locking protection
- 2 x Cone protection tool locking system
- 2 x Pin protection locking system
- 1 x Cone Ø70 mm
- 2 x Memory ring for horizontal arms

Accessories

Storage kit

External IT kit

Wheel clamping adaptor kit for reverse mounted wheels

Light truck cone Ø 75 – 145 mm

Cone Ø 75 – 120 mm for steel rims

Light truck cone Ø 190 – 223 mm + spacer

Bead locking plier

Centre locking protection

Cone Ø 70 mm

Light truck cone Ø 110 – 190 mm + spacer

Cone Lamborghini

Cone Porsche

Cone BMW
